

**RECYCLE OFTEN.
RECYCLE RIGHT.™**

SOURCE: U.S. ENVIRONMENTAL PROTECTION AGENCY

Did you know...

**Plastic bags can
shut down an entire
recycling plant**

**So keep plastic bags out of the
recycling and when in doubt,
leave it out.**

**We've made some updates to what is accepted in your
recycling bin. Follow these three simple rules when recycling:**

1

**Recycle all empty plastic
bottles, cans and paper.**

2

**Keep foods and liquids
out of the recycling.**

3

**Keep plastic bags
out of the recycling.**

Thank you for being a Waste Management customer!

You've probably heard the saying, "it's the little things that count." Well, in the case of recycling, this is especially true. We are asking for your help supporting the details of recycling right!

When it comes to recycling, recycling right is just as important as the act itself. We need the right things ending up in the bin to make a difference for the environment.

As a valued member of the recycling community, we would like to invite you to take the **Recycle Often. Recycle Right.SM** promise to get back to the basics of recycling. The fact is that some recycling actions make a bigger impact than others. So please remember the essentials:

Recycle all empty plastic bottles, cans and paper.

Keep foods and liquids out of the recycling.

Keep plastic bags out of the recycling.

These three steps may seem like small acts in themselves, but they have a big impact on getting the right things in the recycling bin. We're here to be your trusted resource when it comes to recycling. To help you navigate the ever-changing waste stream, we'll be sending out follow-up tips about what is allowed in your bin.

Together we can help protect the environment and do the right thing for our families, friends and communities. For more information on recycling right and to take the promise, visit RecycleOftenRecycleRight.com.

Should you run into trouble along the way, remember this rule of thumb: **when in doubt, leave it out.**
